

# SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 1:22

I have been sticking mighty close to the medical instructions Dr. Avenant gave me - that is the "more fishing" part of the Rx. I have fished every afternoon since Mabel and I got back from our trip - and have caught in all just about 10 knotty bream. But hope springs eternal in the human breast. When the mercury begins climbing above 100 about noon each day, I manage to get Andrew (away from his work), or Whyte Jr. (away from his work) and we light out to Terrell Lake, Hayden Brake or some other place.

Wednesday, for example, I got an early dinner and got in the jeep with Davies, his friend, Preacher Knight from Amory, and two little girls, kin to Mrs. Davies, and hied off to the hardest lake (White Lake) in the county to get to. Before we got to the lake, even the jeep stuck or, to be more accurate, got all four wheels out of contact with the ground. There it stood. Whyte, Jr., who was fishing there and had his excommunicated stallion hitched on the lake, wanted to try to do like Uncle Terrell used to do - hitch the horses tail to the jeep and pull it out by the tail. Uncle George used to do that way with bears - hitch the dead bear to the horse's tail and drag the dead animal home.

Whyte Jr.'s mule proved to be better than the jeep because the mule, which he had ridden back home and got, moved the jeep from dead center.

To give this fishing medicine more power, a heavy rain fell. A good soaking always works well with my constitution along-side a good bait of fishing.

Mrs. Davies' kid sisters were the best fishermen of all. We men were out in the boats, casting and fly fishing and catching few fish. Those gals, with saved-off fishing canes, and small hooks, and sticking close to the bank, caught a nice string of fish.

Anyway, we had a good time, got soaking wet, and that was a blessing too because, as we got soaked, so did the land and about Oxberry.

Until Wednesday, I bet on the jeep going anywhere. After Wednesday, I will have to bet on Whyte Jr.'s mule. I was both physically and mentally prepared to walk out from the lake when he left to get the mule, but the dern mule got down on his knees and moved the jeep until its own power could take hold of the ground.

Unfortunately for the other folks in the county, the good rain seemed to extend only to the river and not much eastward beyond the river.

Weather Note: only a shower fell in Grenada itself, but the mercury immediately dipped from 100 to 84, so the presence of rain helped Grenada folks too.

Chde Jacks and family, who have been visiting their numerous kinsfolk and in-laws in Grenada recently, took out a subscription Wednesday and will get the GOW in Pasadena, Texas, a part of the Houston metropolitan district.

I got it all mixed up. The big shots did not go to the coast, but to a place near Bruin Lake, La., where they did almost everything but fish. Bert Bays was in the party. Maybe he is in training to be a big-shot side rich, I dunno.

Bet Hora says he may be the greesehead of Junius Townes, but he is scared lest from defections in the ranks of the geese, few will be left to roast. Fox get 'em, they desert to go swimming in Bogue, hungry neighbors steal them, etc.

I just dont know when we have missed neighbors more than we missed the Delys and kids, Wednesday morning. It is 1 of the best sets of folks we ever had in our neighborhood.

Vince Genola has been getting the GOW a good while but it was just recently that we found out he had married into the po' Perry family. Whyte Jr. has has two kittens for them when Pete Gray gets around to bringing that bull and returning with the kittens.

As a birthday gift, Mrs. A. F. Hodges is getting the GOW as a present from her papa, William Joiner. The Hodges family lives in Amory, where that Preacher-Jeweler, Knight lives.

## KEETON, TOWNES WIN TRIP TO MEXICO CITY

### They Attained Rank Of All-Star Salesmen

Benton K. Keeton and Robert B. Townes of Grenada were informed today that they had been awarded a free trip to Mexico City, Mexico. As the guests of Lamar Life Insurance Co. for whom they are agents they will fly via Delta and American Airlines June 24 to Mexico City where they will be entertained in the world renowned Reforma Hotel. A trip to the fabulous Xochimilco Floating Gardens, tickets to the Bull Fights in world famous Plaza de Toros, and tours to all interesting and historical places in the city have been arranged for them.

This is the big prize in the 29th annual incentive contest sponsored by Lamar Life Insurance Co. of Jackson, Mississippi. According to Peter K. Lutken, Jr., the dynamic Company Agency Director who arranged the trip, Mr. Keeton and Mr. Townes won this lush vacation in Mexico City for attaining the rank of "All Star" salesmen. Every year for the past 29 Lamar Life has sponsored an annual contest using a combination vacation trip-sales conference as an award to the agency representatives reaching their established quotas in the sale of new business.

A late communique from Lamar Life states that Mr. Keeton doubled his annual quota and will be accompanied to Mexico City by his charming wife, Zay, as a guest of his company.

## Win National Poetry Contest

1,000 poems submitted by poets from all parts of the U. S., Canada and England. Local judges sifted numbers to 35 and forwarded them to the ultimate judge, Daniel Whitehead Hickey.

Winners: 1st, Symbolism by Anne Wilson Frye; 2nd, Requiem, by Mrs. Gretchen Brishmar of Grand Rapids, Mich.; 3rd, Magdalene Speaks, by Bonnie E. Parker, Detroit. Four honorable mentions.

Mrs. J. Marshall Frye of Grenada received notice Wednesday that she was winner in the National Poetry Contest sponsored by the Authors and Artists Club of Chattanooga, Tenn. The prize was a \$75 check.

Mrs. Frye writes beautifully, and we congratulate her on winning this coveted honor. She has allowed us, on several occasions, to print some of her poems and have assured her we are always delighted to do so. Here is a copy of her poem:

SYMBOLISM  
The pensive twilight dons his monkish robe  
And meditates in closely cloistered peace;  
The scarlet sunset lights his tansured head  
The cooling dewdrops dampen every crease;  
Then sleep-eyed Night, the pagan Hindu maid,  
Peeps shyly round the pillared outer court  
And, gazing awed upon the holy man,  
She wonders at his dignity of port;  
He sensing something oddly past his ken,  
Some never-felt and worldly mystery,  
Looks up and meets her deeply velvet gaze—  
Then, blushing with the memory of his vows,  
He drops his eyes, glides swiftly far away;  
She, smiling sadly with her inner soul,  
Runs gracefully and dances till the day.

—Anne Wilson Frye.

## Keeton Replaces Rundle As Almshouse Manager

It is ordered that the resignation of John Rundle as Manager of the Colored Almshouse for Grenada County, due to his ill health, be and hereby is accepted; and that John T. Keeton be and he is hereby appointed Manager of said Colored Almshouse. And, it is further ordered by this Board that we do hereby, on behalf of ourselves and the people of Grenada County, express our gratitude and thanks to the said Mr. John Rundle for his untiring and unselfish service given on behalf of the above cause, without compensation, for the past several years. It is further ordered that a copy of this order be sent to Mr. Rundle and that a copy be released to the press.

## Betty Burklev DeMarco Writes Poem

Many of you boys and girls probably saw films of England's magnificent coronation of Queen Elizabeth 11 Tuesday—and many more probably read about it and saw pictures of the event in the Commercial Appeal. Betty Ann DeMarco of 1642 Poplar, Memphis, was so impressed with the excitement of the coronation that she sat down and wrote a poem about it, and sent it in to share with us.

Queen Elizabeth  
Queen Elizabeth is a beautiful queen  
A picture she will be  
With satins glowing with their sheen  
Beside the azure sea.

Her face a very halo forms  
Her eyes are diamonds true  
She knows the task that awaits her  
And yet she isn't blue.

She walks and talks and speaks to us  
So very bright and gay.  
She laughs and smiles as we do  
Then goes her merry way.

We love her very, very much  
She's so very sweet and gay.  
That's why we want to see her  
On that Coronation Day.

—Commercial Appeal  
Ed Note: Betty is the grand daughter of Dr. and Mrs. R. A. Clanton of Grenada.

## SCHOOL BUS TRAINING SCHOOL IS HELD

A School Bus Drivers' Training School was held Monday through Wednesday at Grenada High School. It was conducted by N. C. Young, who was sponsored by the State Board of Education.

The following attended: Grenada, Mrs. Durwood Smith and J. C. Nail; Gore Springs: Lewis Trusty, Alfred Lindsey, Bill Windham; Holcomb: Jimmie McNeer, Lacey Thompson; James Childs, Cecil Little and Earl Clark; Grenada: Mrs. Theo Dubois Lamar Nail, Jr. and C. M. Roby. State Safety Patrolmen McElroy and Wenger instructed the school Tuesday.

## HIGHWAY 51 BUCKS UP HIGH AS MAN WAIST

Two blocks of Highway 51, in front of Cuff Hill bucked up as high as a man's waist about 2 p. m. Monday.

The extreme heat caused this swelling.

Traffic was routed around the bad spot by City Policemen for several hours.

### Carl W. Kolmodin Dies In Minnesota

Carl W. Kolmodin, formerly of Grenada, passed away unexpectedly at his home in Willmar, Minnesota Tuesday night, June 9, 1953.

Mr. Kolmodin was born June 13, 1916 in Minnesota. He was the son of Mrs. Carl Swanson and step son of Carl Swanson. His father, Mr. Kolmodin, passed away many years ago.

He served in the Military Police of the Army about 12 years and was on the City Police Force in Grenada. He also was parts manager and salesman for the Gratz Buick Company in Grenada.

He had many friends in Grenada who will be saddened to learn of his death. "Kokomo," as he was dubbed by his friends here, was most likable and had a pleasing personality.

He was married to the former Miss Elizabeth Patterson, niece of Miss Courtney Tatum and Burnes Tatum.

Miss Tatum and Burnes Tatum were to attend the funeral in Minnesota.

### Polly Davis Graduates From Blue Mountain

Blue Mountain, Miss., June 5 — Miss Polly Davis, Grenada, received

the B. A. degree from B.M.C. and her diploma was presented to her by President Lawrence T. Lowrey at the 80th Annual Commencement of Blue Mountain College June 1.

While working toward the degree, Miss Davis was also active in the extra curricular activities of the college.

Miss Davis majored in Social Science. She was a member of the Phi Kappa Phi Honor Society, the International Relations Club, the Spanish Club, the President's Club, the Student Government Council, the "M" Club and attained the Honor Roll during her four year course. Miss Davis is listed in Who's Who in American Colleges and Universities. She is the daughter of Mr. and Mrs. B. S. Davis and was graduated from Grenada High School.

### POST OFFICE BOX RENTAL RATES ADVANCE JULY 1

The Post Office Department has notified Postmaster Donald Sharp that post office box-rental rates shall be raised throughout the postal system effective July 1, 1953.

The following rate advances applying to the Grenada Post Office are as follows: payable quarterly in advance: Box-rentals now in effect as follows: 75c, \$1.00, \$1.50 and \$2.00. New Rates effective respectively, July 1st will be as follows: \$1.10, \$1.50, \$2.25, \$3.00.

This is the first change in basic box-rental rates since 1907, through out the postal system, though fluctuations of rates may prevail at offices where there is a change in gross receipts. The increase is warranted to conform to increased cost of maintenance.

### SANDRA PASCHAL WINS FIRST PLACE

Miss Sandra Paschal, daughter of Mr. and Mrs. N. R. Paschal, was first prize winner in the Instrumental division at the District Talent Elimination Contest in Greenwood Thursday, June 4. Sandra, who played a piano solo, "Chopin's Polonaise" will compete in the State contest at the State Fair in Jackson in October. Miss Beril Elder, Home Agent, accompanied Sandra to Greenwood.

Mrs. Wayne Koonce Jr. left last Thursday to join her husband, A-2c Koonce at Honolulu. She went by plane.

All members and prospective members of the Yalobusha Valley Angus Association are urged to attend a membership meeting to be held in the City Auditorium in Grenada Wednesday night, June 17, beginning at 8 o'clock.

This will be a "dutch dinner" meeting (\$1.25 per plate). All interested Angus cattlemen, both pure bred and commercial in the Association are urged to come. Please notify C. O. Sennett, Secretary, Grenada, in advance to reserve plates. The Association area includes Carroll, Montgomery, Webster, Calhoun, Tallahatchie, Yalobusha, Leflore and Grenada Counties.

The first consignment sale of the Association is scheduled for September 2 at Grenada Angus Farm sales barn. This will be a combination sale of both registered and commercial Angus cattle. Indications are that over 100 head of registered and 500 head of more commercial cattle will be offered in the first sale.

The Sales Committee has held two meetings and is working on arrangements. Action taken by the Committee will be explained at the meeting. Other business of the Association will be attended to. The State Field Day for the Miss Angus Assn. will be held at Grenada Angus Farm the next day, June 18. Members of the State Association may want to stay over for this meeting.

### Application For Dam Leases Made To U. S. E. D.

Formal application for lease of the Old Orchard Bay and Carver Point areas on Grenada Lake for development as state parks has been made to the Corps of Engineers, by the State Board of Park Supervisors. It was announced in Jackson Saturday by James W. Craig, State Park Director.

This action followed a request by the Grenada County Chamber of Commerce for approval of the sites for park purposes. An inspection of the areas was made earlier in the week by A. N. Nall, Park Coordinator.

The Old Orchard Bay area is to be developed as a white recreational area while the Carver Point area would become the State's first Negro state park.

Park officials are enthusiastic over the possibilities of both areas and feel that properly handled, these areas can provide some of the best recreational attractions in the state. The two areas are located on the north shore of the lake near the junction of the Yalobusha River and the lake.

It was pointed out by Mr. Craig that the narrow marginal strips on the lake front at both sites present a minimum of mud flats, which the people enjoy as a water playground.

Next step in the development plan, following approval of the lease, is an appropriation by the State Legislature for construction of facilities.

The above was issued by the Chamber of Commerce Monday.

### 190 For: 6, Against School Bond Issue

Grenadians favored the issuance of \$50,000 worth of bonds for school purposes by a vote of 190 for and 6 against.

Forwards the voting was as follows: Ward 1, 47 for, 3 against; Ward 2, 39 for, 2 against; Ward 3, 74 for, 1 against; Ward 4, 30 for, 0 against.

The next step is to sell the bonds, then advertise for bids and finally start building.

The \$50,000 will be used for building a cafeteria in connection with the Elementary School building, for buying a suitable lot on which will be erected a Negro school, and for renovating the high school and adding equipment.

J. C. Hathorn, superintendent of City Schools, believes that the new cafeteria won't be finished in time for the opening of school, but later in the fall.

### REV. SUTPHIN RETURNS TO METHODIST CHURCH

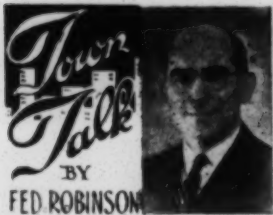

Grenada Methodists are very happy that their pastor, Rev. Felix Sutphin, elected to return here although he had called to larger churches, including two in Jackson.

Rev. Sutphin has become most popular with not only Methodists but all other Grenadians since he came here two years ago.

He and his wife have entered into the community life and have been exemplary citizens.

The GOW Gets Around.

Dr. Norman Vincent Peale who so graciously sends copies of his sermons to thousands of people around the world, wrote recently that "No situation is ever hopeless, not even the one that may be facing you at this moment". Well, this writer has lived a good many years and has had his share of disappointments, discouragements and disillusionments also sorrow, sadness and heartbreak, the depth of which was seeing his only little son buried on a hillside in Arkansas. And we can truthfully say in the face of all honesty that Dr. Peale is right in saying no situation is ever hopeless, and it would be easy on our heart-strings if we could pass this great truth on to some one who may at this moment be in the throes of despair.

"The real, deep, fundamental secret in this matter," says Dr. Peale, "is to get in contact with power". Dr. Peale tells of a young man he talked to in a railroad station at Union New York. This boy was disillusioned and bitter and of course very unhappy. They were told that General Douglas MacArthur was in his private care in the station and the boy went out to see him, having been a recent discharged soldier, and upon his return he held out his hand in a kind of awe-struck manner saying, "I shook hands with a Five Star General... maybe there are better things ahead for me." "When you touch Christ in the midst of your failures, your dismal situation, your hopelessness, there is a transmission of power beyond any thing in this world. Then you can look without fear at any difficulty, and in this faith you will find that there is no hopeless situation," says Dr. Peale, and we hope and trust YOU will believe it.

Cannot help but worry and wonder about whether the little "bleating calf" and Pete Gray ever found the red cow which the advertisement said disappeared from Bledsoe pasture on March 12th. Somebody done stole that cow Pete, or she would come back to her offspring. Why will people steal in spite of the warning of "Thou Shalt Not"? There is NEVER any circumstance or conditions that remotely justify taking that which does not belong to

you... and that covers a lot of things other than cows.

News story says a man in Connecticut was arrested for writing a young lady a 465 page letter. They thought he was mentally unbalanced because he already had a family of 12 children. Well, 465 pages is quite a mash note and we wonder if the guy was thinking straight. We know a little lady in Roswell, New Mexico, named Gerry Robinson Parker, who would never be able to write 465 pages over a period of years, and she has only two children. What do you say, Gerry, lost your pencil again?

Thinking of that unusually long letter reminds us of an incident we heard about in Hot Springs. A colored girl called her relatives in California and after talking for about an hour the telephone company became aroused about the toll charges and the operator cut in to remind the customers the bill was piling up, but they said that's alright and talked on. After two more hours the telephone company sent a representative to the home of the caller to persuade them to say goodbye, and to hand over the cash for the service. Well, the call came to \$357.00 and they are now paying for it at a rate of ten dollars a week. Aren't modern gadgets grand?

Birthday list of a fine group of Gemini folks who are supposed to have twin personalities: Rodney Deffenbaugh, Jr., June 3; his fine little brother, Rickey, June 10; Ira Parks, June 6; Dr. F. S. Here is your fortune: "You have many abilities, but you are apt to be controlled by your moods. With out warning you will change from a cheerful and steadfast person to a depressed and apathetic one. You are inclined to be dissatisfied and filled with unrest, longing to be away, to do something or be somebody, the you seldom know what." I know that is true because my own birthday is June 9th. —Fed.

**Easy on The Heart-Strings**  
British Prime Minister Winston Churchill says:  
"Peace in Korea cannot be purchased at the price of dishonor."  
It would have been easier on our heart-strings had he said:  
"Remembering the thousands of American soldiers and service men who came to our island in World War II, the British nation now wants to send several thousand men to Korea to relieve American battle-

wary fighters who can be stationed in the British Isles for a few months to replace our unoccupied forces, and at the same time they would recuperate from their strenuous schedule - and I have come to America to help arrange it."

#### SPORTSMAN COLUMN

(By C. C. Hamby, Sr.)  
There has not been very much to write about the past two weeks in regard to fishing. Fishing has been very poor due to all lakes and streams too high and muddy, but all this hasn't stopped the fishermen from going and they all catch a few fish. All lakes are going down clear and I have a report on all of them. About this weekend you can go to any one and catch fish. Otter Lake, Walnut, Alligator, Grassy, Hampton, Blue, Fish, Twin, Black Hawk, Caney, Wolf, White, Hayden Brake, Terrell, Blue, Musselwhite, Hard-time, Flat Lake. I don't believe any part of Tippecanoe Basin will be in condition to catch fish. This takes in from Patterson, Thomas, Roane, Alexander, Burger, Hatten, Six Mile, and McEntire.

up. If nothing unforeseen happens, I think your pet lake and place will be OK by the time you read this.

The so-called hand grabblers have begun to have their day, hand grabbing those feverish, sick, setting cat fish out of hollow logs, stumps and holes in the banks. I have been told, when the river went down enough for the hand grabblers, between here and Calhoun City on the Yalobusha and between here and Bruce on Skoon River, there was and has been each day from two to 5 grabblers for every hollow tree and log. And estimated between these points each day around 379 grabblers that's on person for each 10 feet of space. They tell me it's no use for another one to go to any of this space until the water rises and replenishes these hollow logs, etc., because there is not a cat fish left. The game wardens are working day and night between these points looking out for some one to put poison out, and they will try this method if they can't get any fish any other way. If they do catch someone putting out poison, they should throw the book at them.

your licenses expire. Do not be caught fishing with spinners or lures or any kind of artificial bait without a license, on or after July 1st.

Robinson Bayou is in fine shape and bream and crappie are being caught, but only a few bass, so get ready and go forth with some red worms and roaches and have yourself some fun with the blue gill. All of Sardis is a bad report, with the exception of where No. 7 crosses the upper part, between Oxford and Holly Springs. There has been good reports on those slab crappie, fishing deep with medium size glod fish. Also a fair report on down the reservoir to Hurricane Creek. This part of Sardis has cleared up considerably and some bass are being caught on Hawaiian Wiggles and I had a report of several limits of bass were caught. I will be up on Sardis for a couple of days this week, so if you will come by or phone the Shell Service Station I will give you the latest dope.

## Excellent Transportation Systems ...help build Mississippi

Located in the middle of the South, Mississippi is served by excellent transportation facilities, which have contributed substantially to the state's agricultural, industrial and economic growth in recent years.

With over 7,000 miles of hard-surfaced roads, including 11 major U. S. highways, Mississippi is considered to have one of the finest paved highway systems in the nation.

Twenty-two railroads with over 3,800 miles of track provide rail service in every one of Mississippi's 82 counties. A total of 658 truck lines and 92 bus lines carry both freight and passengers throughout the state and to all major points in the nation.

Along the Mississippi River — which carries more traffic today than at any time in history — port development projects are underway at Vicksburg, Greenville and Natchez. The state's two seaports — Gulfport and Pascagoula — are being expanded and improved to handle more cargo shipments to Central and South American markets.

Four major airlines complete the state's network of highway, rail, water and air transportation systems.

Good transportation facilities have been important factors, too, in the growth and progress of electric service in Mississippi.

Today, Mississippi Power & Light Company, for example, serves some 148,500 customers, who are scattered over an area of 22,000 square miles in the western half of Mississippi. In order to provide prompt and efficient service to its customers the Company has divided this 44-county territory into nine geographical divisions. These divisions are further broken down administratively into 38 local offices.

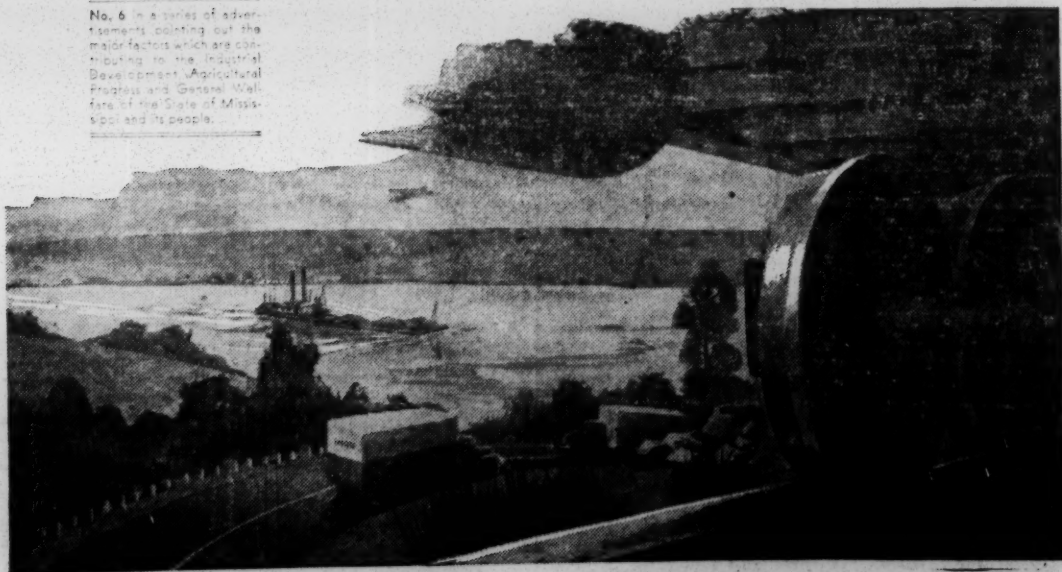

To coordinate service and maintenance activities in such a widespread organization the Company has installed short wave radio transmission stations at 32 key points throughout the territory. These stations are in constant contact with some 130 mobile units, which are equipped with two-way radio sets. These units can be dispatched with a minimum of time to the places where they are needed most.

Maintaining a modern service organization is another way in which Mississippi Power & Light Company is "Helping Build Mississippi."

## Free Christians

Lesson for June 14, 1953

WHEN Paul speaks of Christians as "dead to the law" or "free from the law" he is not thinking of what we call the law of the land. Paul was very careful to observe the laws of his own Roman Empire, as well as all local laws. Furthermore, when Paul speaks of Christians' freedom from law he does not mean that a Christian can afford to turn his back on the Ten Commandments, even though when he says "law" he is usually thinking about those Ten Commandments and all they involve. Let us see what Paul is saying. Christians are dead to the law.

Dr. Foreman

## Law As A Curse

Paul speaks more than once of the "curse" of the law, as for example in Gal. 3:13—Christ "redeemed us from the curse of the law, having become a curse for us." Now it may seem odd and even perverse to think of law as a curse, especially a good law. And particularly the law of God; how can that possibly be a curse? To understand this we have to think our way back into Old Testament times. There were certainly some people, like the unknown poet who wrote the 119th Psalm, who loved the Law and found joy in studying and keeping it. But for every such man there must have been numberless others who found the law just what Paul at one time in his life had found: a sort of standing threat on God's part. "Do this or else—; don't do that or else—." Don't we know people in our times who think of God as keeping a sort of record book full of black marks, — who think of God as keeping up with us just in order to take down everything bad we say or do or think? A person who is not very conscientious may think gaily, "I'll get by;" but a conscientious person who realizes what a high standard the law calls for, may live in terror lest God demand vengeance for every broken law, great or small. Now the Christian can breathe freely; he is free from such terrors because whatever curse there may be in the law, Christ has taken upon himself.

## Law As A Condition

Then the Christian is free from the law as a condition of God's favor. "When shall I be good enough for God to love me?" is a question no one ought to ask. The Christian is one who has discovered that God's love does not wait for our obedience. A mother does not wait till her baby is old enough to understand her and obey her before she will love him. And even when he is old enough to understand, if he disobeys she may disapprove and punish him, but she will not stop loving him. If God had waited to love us till we were good enough to love, he would be waiting yet. It is God's gracious love that produces what goodness we have, not the other way around. Doing what God wants done is absolutely right and we should try our best every day to do just that. But it is absurd to think that God's love is like a thermometer that goes up and down with the temperature of our obedience. We can't earn our way into God's favor. As we were noticing last week, the smile of God is not for sale.

## Law As A Cage

Again, law for some people is a kind of cage. Inside its narrow pattern they carefully live. They do what they must, what the law compels; but beyond that they will not go. They are only as good as they have to be. Now the Christian is free from the law as a cage, just as he is free from it as a curse and as a condition. The Christian loves by faith, hope and love; and these take him clear beyond the limits of law.

A husband who does for his wife and family only what the law requires will be a poor husband. A citizen who will do no more for his country and community than just not to break any laws, is not the best type of citizen. A soldier who will not go beyond the line of duty will deserve no medals. A "Christian" who does no more than barely try to keep from breaking the Ten Commandments is never the high-level Christian. A Christian is free. He is law-abiding; but he does not live "under" law, he lives under Grace. It is a different atmosphere.

### "SEEN, HEARD AND TOLD BY THE EDITOR"

We cannot but speak the things which we have seen and heard. Acts 4:20

From what I hear, from where I sit, Brad Dye seems to be doing a good job teaching the men of Mr. Rundle's class at the Methodist Church.

Allie Taylor, one of our regular subscribers paid in some money sady, and so did Henry Benthall.

There aint much left on the Terrell old place to remind me of Uncle George: the old levee he built around his place; one room of the former 2-room log cabin he moved from his Holcomb place and set up again on the edge of his field; and the once copious artesian well, now down to a stream hardly as large as lead pencil. However, it looks as if Luther Harris who has the land leased, has better prospects for cotton than Uncle Terrell ever had.

I read in the Star where the Grimes had attended the meeting of the Miss. Press Association in Biloxi; also that our Neil Caughman was there also, representing Mendenhall.

All of here on Growing Green St. miss the patriarch of Green Street business, Finley Horton, who has been sorter under the weather recently.

Two merchant princes, L. Friedman of Grenada, and Harry Gordon of Coffeeville, are getting their feet washed good and clean in Hot Springs this week. They are supposed to be registered at the Majestic, but, maybe, only loafing there, and registered at some joint over the stores.

News about the Daly family: the nine of them will move shortly from our neighborhood to the home formerly occupied by Dofgre, much to our regret. Other news of them—

Patey has got back from a trip to their old home in Bradstown, Ky. Mary and her papa are to leave soon on a trip to Louisville, Ky. Mary says she is going to spend on ly enough time at their new home to eat, that she will be back to play with Andrea at all other times.

Bill Cunningham got back from Greenwood with \$150 for Mr. Rayburn's dues. Bill married one of his daughters.

Thanks to Clarence Holloman for a renewal.

"Miss Weet" is on the move again. Her paper now goes to Marks. I think she moves back between Billy and Jones, her two sons.

Various explanations are being made about why fish are not biting: WPA Hamby says the moon aint right; Estes Maxwell says this June "rise" is killing the fish. Whatever the reason, fish aint biting. John Bradley reported that Pet Ray had persuaded him to fish with some fine roaches Pet had caught, but the damned DDT outfit came by and killed all his roaches. I went to Terrell Lake, which seemed to be in fine shape and caught only 3 knot-ty bream; I went to Hayden Brake and caught nothing. Fishing must be bad over in the swamp because folks from Drew and other towns in Sunflower County have been flocking to Yonkapin on Fred Lickfold's delta place.

Spesking of the swamp, William Dailey of Inverness sent in his re-

newal and signed the check THIS time.

Whyte Jr. has been saving two fine kittens for the po' Perrys, but they may be gone when the po' Perrys get there for the Kittens. Delivery, NOT guaranteed.

Green Street is moving forward with new air conditioning in Mrs. Morrison's store, next door to us, and a similar outfit in Central Cafe.

Back before smaller landowners got most of their taxes exempted, a fellow would raise more hell before the board of supervisors about a fifty dollar mule being assessed for \$100, than Will Hoffa would raise about a BIG raise in his land. Today, they dont give a damn what things costs, because they themselves pay mighty little taxes anyway.

You cant keep a squirrel on the ground. Mr. Rundle got out Saturday to vote on the school bond election.

A mother of three children plead guilty in Judge Bryan Bakers Court to forgery Tuesday morning. Her bond was set at \$1,000 and she plead guilty.

Sheriff Speck Davis made the affidavit and arrested her. She was placed in the County Jail. She forged the name of Mrs. Janie Taylor on checks on the Bank of Charleston in the amount of over \$300. She was arrested after she wrote

a \$15 check which bounced as there was only \$10 left in Mrs. Taylor's account.

Her case will be heard in July Circuit Court.

## "there's a NEW CROP for Mississippi Land"

Yes Sir, this new crop, oil and natural gas, is bringing a new prosperity to Mississippi. Just one example is the money that's being paid to Mississippi landowners, even in counties where no oil or gas has yet been found.

GULF paid direct to landowners in 44 Mississippi counties \$3 million in lease bonuses, rentals and royalties last year.

More than 7000 Mississippians receive income regularly from GULF. The company's lease and royalty payments, local and state taxes, material and supply purchases and salaries paid to Mississippi employees added more than \$15 million to the state's general economy in 1952 alone.

GULF is proud to be a corporate citizen of Mississippi, a partner in the state's outstanding economic progress... proud that the company and its employees, in working toward their own goal—to find and produce oil—are making a substantial contribution toward the goal of all Mississippians... toward achieving a balanced, ever-expanding economy... a better life for all.

At night you can see farther and better on concrete. Its light-colored surface spreads illumination. Pavement edges, obstructions and pedestrians are clearly defined.

Night or day, wet or dry, concrete has uniformly high skid-resistance because of its permanently gritty texture. You can stop quickly, safely.

Concrete saves money, too. It is moderate in first cost yet can be designed accurately for any axle load—and concrete keeps its load-carrying capacity throughout its long service life.

Concrete pavements cost less to maintain, last much longer. All this adds up to low-annual-cost service.

## State Winners of Negro 4-H Club Judging Contest

The Grenada County Negro 4-H Club judging team won first place in the general livestock judging contest (which consisted of judging beef cattle and hogs) at the State 4-H Club Short Course which was held at Alcorn A. & M. College June 2-6.

Pictured above are the boys constituting the judging teams, reading from left to right, Eugene Spencer, Tie Plant; Courtney Salley, Jr., of Sweet Home and Richard Porter, Jr. Tie Plant, Spencer was high scoring individual with a total of 185 points.

This makes 2 years in succession that the Grenada County Judging Team won first place in general livestock judging. The county should be mighty proud of these boys for winning such honors.

Earl Ammons, Negro County Agent said: "I would like to express my thanks to all of those who helped to make it possible for these boys to attend and participate in the State 4-H Short Course. The trip was both educational and inspirational to the boys. The State Capitol and the zoo were two of the most important places visited by the boys while passing through Jackson. Being the first time either of the boys had visited Jackson, Mississippi, our State Capitol, I'm sure that each of them will give credit or remember that 4-H Club work made it possible for them to make their first trip to the State Capitol."

### Griffis-Bean Wedding Vows Said In Church Ceremony

At the First Presbyterian Church in Grenada, Sunday afternoon at 4 o'clock, Miss Beverly Lea Bean, daughter of Mr. and Mrs. Hayden Garfield Bean was married to Samuel Bryce Griffis, Jr., son of Mr. and Mrs. S. B. Griffis of Grenada.

The ceremony was performed by the pastor, Rev. W. Taylor Clarke, and music was presented by Mrs. E. L. Boteler, Jr. at the organ and Miss Sue Vandiver, soloist, who beautifully sang, "O Promise Me" and "All For You."

The church was decorated with white gladioli arranged in fan shaped sprays in white wicker baskets, placed against the lovely foliage of jade palms and woodwardia ferns, white tapers glowing in tall candelabra. The chancel and altar rail were draped with white.

The bride, given in marriage by her father, wore a lovely wedding gown, an original by Arden, of imported French chantilly lace combined with nylon tulle, all arranged over white slipper satin. The lace bodice featured a portrait yoke of nylon tulle appliqued with rose lace medallions, and the brief sleeves also featured applied rose lace medallions. Her lace gauntlets, buttoned to the elbow ended in calla points over the hands.

Her bouffant skirt of three tiers made of lace panels, was worn over hoops, and gracefully extended into a Cathedral train. Her veil was of three tiers of misty bridal illusion and fell to finger tip length from a small Puritan cap of lace and seed pearls. She carried a cascading crescent bouquet of white roses and stephanotis with a removable white orchid, also her mother's wedding handkerchief.

Mrs. Julius Murray of Smyrna, Tenn. was matron of honor. Her dress was of a lovely shade of mint blue nylon net. The bodice was strapless and had puff sleeves. The waist-length skirt was worn over hoops, and her mits and half-hat of nylon were daintily trimmed with sprays of lilies of the valley. She carried a beautiful bouquet of pink carnations tied with cascading satin ribbons.

The bridesmaids were Misses Donna Jean Sharp and Laura Ann Honeycutt of Grenada and Bebe Carter of Ruleville. Miss Lucinda Clarke was junior bridesmaid. Their dresses and accessories also bouquets were identical to the matron of honor's attire.

Serving the groom as best man was his father. Groomsmen were Terrell Griffis, George Garner, Jr., Jimmie Wells and Kayo Mullins of Grenada, Clarence Wilkinson of Yazoo City and Charles McKnight of Jackson.

Mrs. Hayden Bean wore a beautiful Modanna blue nylon lace dress with matching accessories. Mrs. S. B. Griffis, Sr. wore a petal pink lace dress trimmed with beads and rhinestones. Her accessories were pink and she wore an orchid corsage.

#### RECEPTION

Immediately following the wedding a reception was given in the beautiful new home of the groom's sister, Mrs. Charles Arneson and Mr. Arneson. The home was decorated with magnolias, gardenias and jade palms.

Mrs. W. Taylor Clarke welcomed the guests and presented them to the receiving line which was composed of the bride and groom, Mr. and Mrs. Bean and Mr. and Mrs. Griffis and the members of the wedding party.

Presiding at the brides book were Miss Beth Thornton of Marigold and Mrs. Kayo Mullins of State College. Miss Patricia Sage of Bruce played the piano during the reception.

The brides table, in the handsomely appointed dining room, was overlaid with an imported cutwork cloth. The floral arrangement in the center was of white stock, carnations and greenery, in a silver bowl.

The elaborate wedding cake, made in four tiers was lavishly decorated with white and silver roses and silver wedding bells, encircled by trailing plumosus ferns and gardenias. A miniature bouquet of stephanotis and single gardenias graced the top, or bride's portion of the cake. Mrs. M. F. McCulloch served the cake. Mrs. H. D. Lane served punch, and assisting in the dining room were Mrs. George Murray, Mrs. Thomas Grant, Mrs. Logan Wagner and Mrs. Bobby Burkley.

For travel the bride wore a 2 piece aqua linen costume with white linen accessories and the orchid corsage from her wedding bouquet. Upon their return to Grenada they will reside on Spider Street. In September they will resume their studies at Delta State.

Mrs. J. N. Redus of Tupelo arrived Sunday to spend the week with her sister-in-law, Mrs. H. T. Rogers.

### VISITOR FETED AT PARTY

Mrs. Sarah Barnard of Ole Miss, who visited her friend Mrs. Cowles Horton here last weekend was complimented at an afternoon party Saturday at the Monte Cristo when Mrs. H. J. Ray Sr. was hostess to a group of friends of Mrs. Barnard.

The long table, where the guests were seated for refreshments was centered by bowls of sweet peas. Guests present were Mesdames Barnard, Horton, A. M. Carothers, E. L. Wilkins, Lynn Roane, Willye Y. West, Addie Adams, Harry Adams, Mary Brown, T. H. Meek, Gertrude Perry, C. H. Colhoun, R. W. Sharp, Kathryn Baker, Nan McCormick, W. H. Kirk, Elizabeth Brown and Misses Jane Young and Eva Ray.

Pfc H. T. Smith of Ft. Jackson, S. C. and Carl Russell Smith of Arlington, Va. spent last week with their parents, Mr. and Mrs. Miles Smith.

Mr. and Mrs. Will Horton have returned from a few days visit with Mr. and Mrs. Pritch Horton Jr. and sons in McGee, Ark. While there they visited friends in Ruston and Dubach, La. and in Hot Springs. Mr. and Mrs. Pritch Horton, Jr. and family returned with the Will Hortons to visit his parents, Mr. and Mrs. Horton, Sr.

### PARTIES FOR BRIDE ELECT

Highlighting the week here were the parties and luncheons honoring Miss Dorothy Jean McCorkle, bride elect of Mr. John W. McCreight. LUNCHEON - CRYSTAL SHOWER

On Friday of last week Mrs. George Perry was hostess at a very charmingly planned luncheon and crystal shower honoring Miss Dorothy Jean McCorkle at the Monte Cristo.

A yellow lavender and pink motif was beautifully carried out in the flowers and place cards. The gift table where the gifts were placed was decorated with pink bows and white baby breath. A 3-course luncheon was served to 18 guests.

#### BREAKFAST HONORS

On Sunday morning at 9 o'clock Miss Dorothy Jean McCorkle was again complimented at a breakfast at the Monte Cristo when Miss Petie Pate, Miss Mary Frances McElwath and Miss Patsy Rogers were hostesses to a large group of friends. The table decorations were of assorted pastel hued sweet peas and individual corsages of sweet peas to mark each place.

#### MRS. GERARD IS HOSTESS

The Gerard home was the scene of a beautifully planned luncheon on Wednesday when Mrs. F. T. Gerard entertained in honor of Miss McCorkle, bride elect of Mr. John McCreight. Mrs. Gerard presented her a beautiful white corsage tied with silver ribbons, and a place setting of China.

The lace draped dining table was centered by a low bowl arrangement of pink and white hydrangers, and these same lovely flowers were placed in the reception rooms.

A five course luncheon was served to the honoree, her mother, Mrs. S. K. McCorkle, Mrs. Jack Hamm, Mrs. George Granberry, Jr., Mrs. George Criss, Misses Patsy Rogers, Petie Pate, Mary Frances McElwath and Mrs. M. J. Waldrop.

#### MISCELLANEOUS SHOWER

On Wednesday evening Mrs. R. J. Vance and Mrs. Eddie Nored were co-hostesses at a miscellaneous shower given in honor of Miss McCorkle. This lovely party was given in the new home of Mrs. Vance in South Grenada.

#### LUNCHEON, LINEN SHOWER

On Thursday at noon, (today) Mrs. E. R. Green and her daughter, Mrs. Bud Gerrard are entertaining at a luncheon and linen shower honoring Miss McCorkle at the Monte Cristo.

#### BRIDES LUNCHEON

Saturday at noon Miss Dorothy Jean McCorkle will be hostess to the feminine members of the bridal party at the Monte Cristo where a beautifully planned luncheon will be served and that evening a rehearsal party will be staged following rehearsal.

Miss Mary Leigh Garner is visiting Mr. and Mrs. C. J. Cleveland and daughter in Shreveport, La. Her parents, Mr. and Mrs. S. H. Garner took her to Vicksburg Sunday where the Cleveland's met her for the trip home with them.

The men of the Presbyterian Church will meet at the church for their regular monthly supper meeting Friday night at 7:30. Mr. F. G. Craig of Batesville, president of the men's organization of the North Mississippi Presbytery will be the principal speaker.

### WEDDING PLANS ANNOUNCED

### GRENADA LIBRARY ASKS: GOING ON A VACATION?

Let the County Library help you to spend your time and money to the best advantage. It does not matter where you go not how, the library has aims to make your time more enjoyable and profitable. Maybe you had rather be an arm-chair traveler in your own backyard. You will find books of travel, maps and suggestions free for the borrowing. What could be cheaper or safer?

We have just received travel pamphlets from travel bureaus for vacations in any region of the United States, to Mexico, Hawaii, Alaska and Europe by car, bus, plane or train. Come by and browse among the bright colored pamphlets. It is fun even if you never get out of town!

Anticipation is usually greater than realization, half the fun of a trip is in the planning. Read up on the places of interest in the towns you may pass through. It is well to know something of the history and background of a region then you enjoy its monuments and its people. The time to plan is before you leave. Let the library help you to pack the best into your vacation time while you are packing your bags. Remember it may help you to decide what should go into the luggage.

America has everything in the way of recreation. Just decide whether you wish to visit the mountains, seashore, lakes or rivers; maybe a combination of all. Will you know what you are passing besides the hot-dog stands? Visit your library and be prepared. Send us a postcard and we will put it on our bright "vacation" bulletin board. Let's see how many states Grenada people visit this summer.

### Local Draft Board Has Three Calls

Local Selective Service Board No. 23 had three calls for the first week in June.

On Monday, Dr. J. K. Avert, Jr. was forwarded for armed forces examination as a special registrant under the doctors, dentists, and veterinarians special registration.

On Tuesday, five men were forwarded for induction into the armed forces. The 40 and 3, under the direction of Marshall Perry, and the American Legion, under Bill Murray, were present to give gifts and see the men off.

The five were: Jack Minter Dubard, white, David Eugene Thomas, white, and Roy Gene Stinson, colored. The other two, Spencer B. Neely, colored, and Elmer L. Jones, colored, will be inducted in Chicago.

Two men were forwarded Wednesday for armed forces physical examination: James Daves, white and Edward Reed, colored. Alternate is Paul Norman Windham, white.

### PTA PRESIDENT MAKES AN APPEAL TO VOTERS

The president of Grenada PTA, Mrs. John Murchison, announced that the members of Grenada Parent Teacher Association have long realized the urgent need of additional cafeteria facilities at Grenada School.

The organization heartily endorses the proposed bond issue (to be voted Saturday, June 6) and urges all school patrons to be sure to go to the Grenada Elementary School on Saturday, June 6 and vote FOR the proposed issue.

### SCHOOL HOMES FOR SALE IN GRENADA DAM AREA

Vicksburg, Miss. - Lt. Col. George F. Dixon, District Engineer of the Vicksburg District, CE, announced today the sale of 7 items of buildings in the Grenada Reservoir Area. Sealed bids will be received at the office of the District Engineer until 11:00 a. m. June 23, 1950 and then publicly opened.

These buildings range in size from 3, 4 and 5-room houses to a school building. Each of the buildings is on a separate tract of land and is subject to inspection by prospective bidders. The Project Manager, Real Estate Project Office, whose office is located at the Grenada Dam, approximately 3 miles northeast of Grenada, Miss., will make arrangements for such an inspection.

The sale will be on an all cash basis "as is" and "where is." The successful bidder is required to remove the building on or before September 1, 1953. Additional information may be secured from the office of the District Engineer, P. O. Box 60, Vicksburg, Miss., or the Project

Manager at Grenada Dam.

Miss Lucille Hamms of Memphis spent last week with Mrs. Vassar Dubard and is spending this week with Mr. and Mrs. L. A. Dubard, Sr.

## Electric Plant's Largest Single Part

The largest single piece of equipment, the turbine spindle or "drive shaft" of generating unit No. 1 of Mississippi Power & Light Company's Delta Steam Electric Generating Station, is shown above as it arrived on site from the factory via flat railroad cars.

The huge spindle now under installation at the \$23,000,000 electric generating plant, is one of the focal points in the generating of electrical power. Steam, which has been heated beyond 1,000 degrees of temperature and compressed to 1250 lbs. of pressure per square inch, is "dried" of all moisture (making it invisible to the

human eye) and then blasted onto the blades attached to the turbine drive shaft shown above. This pressure on the blades whirled, at 3600 revolutions per minute, the turbine spindle which is "coupled" or joined to the generator rotor, and which in turn generates the electrical power.

Completion date for the Power & Light Company's 300,000 horsepower electric generating plant, located near Cleveland on Highway 61, is scheduled for the latter part of 1953.

## Meat Shrinkage Myth Hit By Impartial Authorities

At present there is a great deal of misunderstanding and misinformation regarding meat shrinkage in modern cooking, and many conflicting and unsubstantiated claims have created widespread public confusion.

Some homemakers are almost afraid to cook a roast for fear a hefty 6-pound beef will curl up and completely disappear in her oven, after reading some of the claims and accusations now being printed under the guise of fact.

Impartial experts and research groups throughout the nation agree that regardless of whether you prefer gas or electric cooking, meat shrinkage is not caused by the type of fuel you use, but by the heat itself. The higher the temperature used in roasting meats, the more shrinkage you will have, whether you use gas, electricity, wood, charcoal or \$50 war bonds for fuel.

The National Livestock and Meat Board, an unbiased and impartial authority on meat cookery, has this to say about meat shrinkage in a public statement recently issued:

"No meat cookery research has been conducted which proves that cooking with one kind of fuel is superior to cooking with another. When doing meat cookery research, both types of competitive

ranges were used. The factors felt to have the greatest influence on shrinkage and palatability are the temperature at which the meat is cooked, the length of cooking time and the grade of meat itself."

Among many similar statements from meat packers, restaurant groups and others, the one recently received from Mary Gifford, Director of the Consumers Service Department of Armour and Company, Chicago, is significant. She writes:

"My work with shrinkage in meat cookery goes back some 18 years, starting with considerable technical work done in connection with the North Dakota Experimental Station on the roasting of beef and veal. In our test kitchen here in Chicago, we have worked on this subject for some 13 years but in a less concentrated way. We use both types of competitive ranges and make positively no difference in the directions for their use in roasting. Nor do we make any statements regarding differences in shrinkage, because we have found no significant difference."

In addition, the National Bureau of Standards has run tests and has reached the same conclusions, as has the University of Chicago, the University of Missouri and other unbiased and impartial groups concerned with fact only.

## RECORD-BREAKING GAS MILEAGE

for the driving **YOU** do!

This year's Chevrolet brings you the most important gain in economy in Chevrolet history. And it's the kind of everyday economy that saves you money wherever and however you drive!

Inch along through heavy traffic. Roll up the miles in steady highway cruising. Long trips or short errands, byroads or boulevards, you get far more miles per gallon in this great new Chevrolet.

New high-compression power is the reason. Both the new 115-h.p. "Blue-Flame" engine in Powerglide\* models—and the advanced 108-h.p. "Thrill-King" engine in gearshift models—deliver more power on less gasoline. Acceleration and hill-climbing ability are greater, fuel consumption is lower!

This is the kind of economy that counts the most—important gasoline savings for the driving you do, together with lower over-all costs of upkeep. And along with it, you enjoy all the other advantages that only the new Chevrolet offers you. Come in and see for yourself!

\*Combination of 115-h.p. "Blue-Flame" engine and Powerglide automatic transmission available on "Two-Ten" and Bel Air models only.

Judge Pontiac purely from the standpoint of quality and it's hard to believe that it is actually a low-priced car. Certainly it's as distinctively styled as any car on the road—and its beauty carries through into its luxurious, roomy Body by Fisher. Performance-wise, Pontiac is second to none, with power to spare that whisks you through city traffic or cruises with remarkable economy. And Pontiac is a big car, with a long, 122-inch wheelbase.

But Pontiac's outstanding feature is its price—a price so low that if you can afford any new car you can afford a Pontiac. Come in and get the facts that prove that dollar for dollar you can't beat a Pontiac!

## "Where's Capsule"? Told

Dear Mr. Whitaker:

This letter is to let you know that  
Johnnie (The Capsule Cup) is still  
keeping a close guard on the Navy  
Base with the help of Uncle Sam,  
and he has also been initiated into  
the Knights of Columbus in the first,  
second, and third degrees.

On Sunday, May 31, 1963, Cardinal  
Stritch of Council 616, Memphis,  
conferred these degrees on him as  
well as 103 others.

His day started with Mass and  
Communion at 8 a. m. at St. Mary's  
Church, followed by a compliment-  
ary breakfast at the Columbian Ball  
Room in the Catholic Club at 9 a.  
m., and the initiation, beginning at  
1 p. m. and lasting until 6 p. m. (or  
the conferring of the first, second,  
and third degrees). After this pro-  
cedure, smorgasbord was served to  
both new and old members at the  
Terrace Gardens of the Catholic  
Club.

Capsule came home with his ton-  
gue practically hanging out but said  
that he had had a whale of a nice  
day. He couldn't relate all the do-  
ings that went on, though.

Capsule also asked that you tell  
High Pockets to give the po' folks  
at Grenada a chance.

He also asked that I tell you that  
he and Uncle Sam invite all Gren-  
adians to the Navy Festival which is  
being held on June 19, 20, and 21.  
They are raffling off six brand new  
cars, including a Cadillac, to be won  
by people who purchased tickets for  
the Navy Relief Fund, as well as  
many other fine prizes. There will  
be a big air show staged by the Blue  
Angels Flying Team, fun for the ad-  
ults as well as the kids. Admission  
is free for everyone, and by the way,  
they will serve ice cold beverages.

This is about all I can think up  
to tell on the Capsule, so will have  
to stop. We really enjoy reading  
your paper because it keeps us up  
on the doings of the home town, as  
well as some good wit included.

Sincerely,

Mrs. John S. Capuson (Capsule)

### LIBRARY NEWS

tion". Now ready. As soon as re-  
vision of certain pamphlets has been  
completed by the publisher, they will  
be processed and the list of Scout  
badges will then be complete and  
up-to-date.

A new book by Hocking Carter is  
always an event. His latest is "Where  
Main Street Meets the River" and  
covers his career as a newspaper  
man from the early 30's to date. It  
is entertaining as well as informat-  
ive. The personal testament of a  
man who has become the spokes-  
man for the New South - his be-  
liefs, ideals, and Goals. This is now

available at the library.

Vacation time is at hand, even li-  
brarians needs a little change. Miss  
Elizabeth Jones and Miss Faye Grif-  
feth will leave Saturday for a short  
trip through Virginia and New Jer-  
sey. During their absence the library  
will be kept open as usual by Mrs.  
Roberta Burkley.

### SOIL CONSERVATION

(By Rex R. Blue, SCS)

Mr. W. R. McBride has completed  
3000 feet of secondary drainage ditch  
on the Duncan farm West of  
Holcomb. The ditch will provide an  
outlet so that smaller surface drains  
may be installed.

Technical assistance was given by  
SCS personnel through the Grenada  
County Soil Conservation District.

Twenty three farmers received  
black bass to complete the stocking  
of their ponds. Blue gill bream were  
placed in the ponds previously. Now  
is the time to fertilize your pond -  
use 100 pounds of 6-8-8 fertilizer per  
acre. When the pond becomes clear  
enough to see an object twenty in-  
ches under the water, fertilize again.  
Ponds rapidly become overstocked  
if not properly fertilized and man-  
aged. Do not hesitate to fish your pond  
all you can when the fish become  
large enough to use.

W. J. Dorroh has harvested a good  
crop of Pecosue and Ladino Clover  
hay from a 26 acre field on his farm.  
Pecosue and Ladino not only makes  
good pasture but is an excellent  
soil building crop when used in a  
crop rotation.

New cooperators of the Grenada  
County Soil Conservation District  
are R. L. Davis, Mt. Nebo; Mrs. Hor-  
tense Matthews, Holcomb; E. J. Tay-  
lor, Geeslin; and Frank Rocha, Pro-  
vidence. The district will assist these  
farmers in preparing Soil and Water  
Conservation Plans for their farms.

### BIRTHS OUTNUMBER DEATHS 4 TO 1 DURING MAY

Births outnumbered deaths by  
more than four to one in Grenada  
County during May, Miss Corrie  
Perry, registrar of vital statistics,  
reported.

There were 45 livebirths, 16 of  
them white and 29 colored, 11 per-  
sons, 2 of them white and 9 color-  
ed, died. There were five stillbirths  
in the county, all of them in the  
hospital, four of them colored and  
1, white.

Causes of death: heart disease, 3;  
pneumonia, 1; apoplexy, 2; accidents  
2; and diarrhea, 1.

Card tables were placed on the  
lawn from which the refreshments  
were served, which included fried  
chicken, hot biscuits, sandwiches,  
stuffed eggs, home made pies, cakes,  
pickles and drinks.
